

## INBRED MAIZE LINE PH4GP

Loren John Hoffbeck

### Abstract

5           An inbred maize line, designated PH4GP, the plants and seeds of inbred maize  
line PH4GP, methods for producing a maize plant, either inbred or hybrid, produced by  
crossing the inbred maize line PH4GP with itself or with another maize plant, and hybrid  
maize seeds and plants produced by crossing the inbred line PH4GP with another  
maize line or plant and to methods for producing a maize plant containing in its genetic  
10       material one or more transgenes and to the transgenic maize plants produced by that  
method. This invention also relates to inbred maize lines derived from inbred maize line  
PH4GP, to methods for producing other inbred maize lines derived from inbred maize  
line PH4GP and to the inbred maize lines derived by the use of those methods.
